---

I agree with Dylan that Ericka can offer great insight as it relates to current the ENP along with issues we've seen from other CBO's currently offering meal delivery services and identifying data/technology information concerns.

Thank you,  
Liz

Hi An,

I am looping in Renee Ramirez as she (and/or Ericka Danczak) would probably be best to join the call you will be setting up. The Office on Aging administers the Elderly Nutrition Gap (ENP) program and is planning to issue an RFP for new contracts on October 1. I believe there are also additional funds for the ENP program anticipated from the California Department on Aging. Not sure if those might be an option as well. Anyway, Renee will have more information but glad to work with you on a joint response.

All the best,

Dylan

Just a heads up on this request that I received. As it relates to seniors and meals delivery, I think OCCR and SSA should partner on this response; we can potentially also bring in CalOptima if warranted. We may face challenges sharing PII if target are Medi-Cal beneficiaries.

Please let me know your thoughts. I can reach out to Rhiannon and coordinate a date/time to discuss.

Hi An,

I can verify Rhiannon asked me for your contact info. She is one of Supervisor Do's daughters. Let us know if we can assist in any other ways.

Michaela

Hi Michaela and Richard,

I received the email below from Rhiannon Do related to potential nutritional support to older adults in the API community. With heightened awareness on cybersecurity, I wanted to know if this is

legitimate before responding and because of certain confidentiality we may have when it relates to sharing of PII. Thanks.

Hello An,

This is Rhiannon Do and I am the Executive Director for VAS (Viet America Society), a nonprofit based in Fountain Valley.

I received your email from Supervisor Andrew Do's office and am reaching out because we are currently building a nutrition program to deliver meals consisting of cultural foods to older adults of the API community in Orange County. We would like to develop a software system that would allow us to conduct outreach and provide services to Medi-Cal members.

I was wondering if you would be available to speak to me about the requirements for this system and any recommendations you would have. Please let me know when is most convenient for you.

Thank you very much.
